### CLEBOURNE CONFESSES.

#### PLAN TO AVENGE THE MARTYRS' DEATH DEFINED.

No Definite Scheme had been Formulated but a Conspiracy did Exist.

The "Q" Dynamiters Bound Over to Await the Grand Jury's Action—The Grievance Committee.

Address a Resolution to the Public—A Scab Engineer Fires at a Narrow Gauge Man—The New York Anarchists Laying Low.

CHICAGO, July 19.—Frank Clebourne, the brown haired, blue eyed, sweet voiced fiend, who with John Hronke, and Frank Chapek, seemed to murder Judge Gary, Judge Grinnell and Inspector Bonfield, has made a full and complete confession. Clebourne was not looked up at the army yesterday, as was the other two, and when Chapek was taken to the central station, Clebourne was sent to an outlying police station. He was not subjected, as were the others, to the ordeal of having his picture taken for the rogues gallery. Last night Inspector Bonfield, accompanied by two of his Bohemian secret service operatives, clad in working men's suits, with soft black hats and blue flannel shirts, visited the innocent looking prisoner. The preceding day he had intimated that he was ready to tell all he knew and last evening the inspector went to hear his story. Through the interpreters Clebourne went into the whole story of his first meeting with Hronke and Chapek. His confession was that Hronke had unfolded his plan for revenge, and had told of a bomb that he (Hronke) had invented. It was small, not larger than a baseball, and it was to be loaded with dynamite and bits of broken glass. It was denied by Clebourne that the plot was to murder the judges and inspectors, that is, he heard of no such definite scheme. They were talked of as Captain Hronke, and he understood that he was to pay more attention to the captain than to any one else. There was no concerted plan of action, but it was agreed that when all preparations were made he and two others were to be informed by Hronke of the time and place to do the deed. About July 1 he was visited by Hronke. He brought him two bombs of the broken glass variety and two sticks of dynamite from which he was to make bombs of gas pipe after the usual pattern. The other two men were also supplied with sticks of dynamite. He had the stuff in his house for about a week and then grew so afraid that it would be discovered that he made away with it by throwing it into the river. This was the substance of the confession which Inspector Bonfield today placed in the hands of a type writer operator for the purpose of having it put in type for the public. The confession is much more in detail, and covers about thirty closely printed pages. By his confession it is understood Clebourne was not only a participant in the conspiracy, but he was also a member of the "Q" dynamite gang. He is in reality much less guilty than Hronke, Clebourne or any one of the remaining defendants. He has agreed to give in his testimony in open court where it will corroborate the other evidence served by the inspector against the conspirators. The other men are still at large, but may be arrested at any time.

### YE MEN!

Know that as good a Balbriggan shirt, colored or unbleached, French yoke and pearl buttons, as has been sold for 75c, we have reduced to 48c.

A big lot of seamless balbriggan socks worth 20c per pair 2 pair for 25c.

The best unlaundried shirt you have bought at 75c we sell at 50c.

A beauty in pleated bosom shirt laundried (actual count 22 pleats) regular price 1.75 out they go at 98c.

### FOR THE LADIES.

We offer our summer underwear at greatly reduced prices. The very best \$1.00 silk lisle thread Jersey vest reduced to 50 cents.

The cut in prices is general and you can buy a splendid vest very cheap.

### NEW YORK ANARCHISTS LAYING LOW

NEW YORK, July 19.—The anarchists in this city are keeping very quiet over the dynamite plots of the Chicago anarchists. The head of the New York anarchists is in the Seventeenth police district, and if they have been plotting here too they have been doing so as to avoid the attention of the police. They have not held any meetings for over a month past in any of the meeting rooms in the saloons in that precinct and the police say that if they held meetings they must have been in some other precinct. That they could not very well do so without attracting the attention of the police officers there.

### CAPITAL BUDGET.

ENGROSSING CLERKS WORK WELL. WASHINGTON, July 19.—The engrossing clerks of the house of representatives have been working closely the progress of the tariff bill in the house and now have the bill in such shape that its engrossment will be complete and the bill ready for transportation to the senate as soon as a definite vote is taken upon its passage.

### THE FIFTH UMPIRE SELECTED.

WASHINGTON, July 19.—Mr. Young, of the Base Ball league, has received favorable answers from members of the executive committee in regard to the appointment of a fifth umpire, and has designated Mr. C. B. Powers, of New Castle, Penn., who will be stationed at Pittsburg.

The bill passed by the senate (with amendments) supplementary to the Pacific railroad act is the bill passed by the house on the 14th of March, requiring the Pacific railroad company to construct, maintain and operate a telegraph line to afford equal facilities to all connecting lines. The amendments mainly strike out the word "construct" wherever it occurs.

### ASIATIC CHOLERA IN HONG KONG.

WASHINGTON, July 19.—The marine hospital bureau is informed that Asiatic cholera is epidemic in Hong Kong.

### THE VOTE ON THE TARIFF BILL.

WASHINGTON, July 19.—It is evident that the Mills bill is to pass the house. The power of the party caucus and the influence of the administration makes this certain. The Democratic leaders are now speculating as to the vote by which it will be passed. Mr. Mills is quoted as expressing the opinion that there will be fifteen yeas, and that there would not be more than eight nays. The indications now are that there are six and possibly seven Democrats, whose names will not be on the roll in favor of the bill. These Democrats are Randall and Swenden, of Pennsylvania; Merriam and Freeman, of New York; Wilkins and Foran, of Ohio, and possibly, Bryce, of New York.

Mr. Randall will not be able to present, and so bitter is the opposition of the free traders that it is said he will be unable to obtain a pair. The Bourbon free traders propose to drive Mr. Randall out of the party, even while he is on the bed which there have been apprehensions might be the result of his fall. Swenden has had the manhood to stand by his convictions, notwithstanding the tremendous efforts that have been made to force him into line. He has been offered inducements of all sorts by the free traders in the way of compromise on the bill. Even at the last moment this afternoon he has refused to make any such compromise. He is to be voted upon, to strike out the word "construct" in the bill relative to the Pacific railroad, although that schedule had long been passed, and Mr. Mills had resolved to refuse to reopen the schedule for any other person, and he has received his punishment from the president in the veto of the public building bill at that place. "There is an Alliance for every Swenden," but he is neither to be threatened nor cajoled into voting for the bill.

It is definitely known that no Republican will vote for the bill, except Mr. Randall, who is practically a free trader. The two Independents, Anderson, of Iowa, and Smith, of Wisconsin, are expected to vote for the bill, and it is very probable that the final result will stand 51 yeas in favor of the bill, composed of 18 Democrats, Anderson, of Iowa, Smith, of Wisconsin, and Fitch, of New York. There will probably be 15 yeas against the bill, of which 14 will be cast by Republicans and six Democrats named above. Bryce has said that he will not make up his mind how he shall vote until the last moment. The most conservative estimate, therefore, places the majority upon the bill at not to exceed 2.

### THE TARIFF BILL IN THE SENATE.

WASHINGTON, July 19.—The Republican leaders in the senate have defined their policy with respect to the fishery treaty. Beginning with next Friday it is their purpose to proceed with the discussion until the treaty shall be disposed of. The object is to have the fishery treaty out of the way before the tariff bill shall be brought in for consideration, and to fill in the interval between the two bills when the vote upon the fishery treaty shall be taken and the beginning of the tariff debate by appropriation bills and miscellaneous bills. So far as practicable it is the intention in the senate to have the rest of the business of the session disposed of before the debate on the tariff bill shall formally begin. Most of the speeches have been made upon the fishery question, and it is not believed that much more time will be taken in considering it.

The sub-committee of the senate committee on finance, which is preparing a tariff bill as a substitute for the Mills bill, has been in session since yesterday afternoon. Nothing has been finally determined, but members of the committee say that the remainder of the work can be accomplished by the end of the short time after the Mills bill shall reach the senate. The committee is still engaged in hearing members from the house whose industries are affected by the bill. These members are coming over and taking up hourly the entire day in making speeches to the senate. The probability is that the senate committee will soon tire of permitting the members of the house the speeches which are already printed in the Record, and that the doors will be closed to speakers who do not care to present information, but desire to make speeches. The most prominent question which senators privately talk about is as to the probability of the senate committee when the Mills bill and the "finance committee's" substitute shall be reported to the senate for action. One thing seems pretty clear, the debate will be very short of very long.

### DROWNED WHILE BATHING.

DES MOINES, July 19.—At Jefferson yesterday Grace Enfield, Millie A. Chandler and Carrie Bartlett were drowned while bathing in the river. Their ages ranged from 11 to 13. The bodies have been recovered.

### STARVATION IN NEW FOUNDLAND.

ST. JOHNS, N. F., July 19.—People arriving here from the eastern and northern part of the island report that great destitution is prevalent in the small hamlets which depend upon fishing for a living. A Rose Blanch dispatch says that pauperism has assumed the most alarming proportions. Sad tales of destitution and poverty come from Grigriet, F. F. Thompson, who arrived here from the latter part yesterday, says that more than a third of the people are in a starving condition. Thirteen or fourteen families are living entirely on seaweed.

### FIRED ON BY A SCAB.

DES MOINES, Ia., July 19.—At Osceola yesterday an engine on the narrow gauge road from this place and a Burlington engine stood at right angles. The narrow gauge engineer scratched his hand, which is said to signify that a scab is about. The "Q" engineer drew a revolver

### THE SUCKER'S CALL.

#### HARRISON ENTERTAINS THE ILLINOIS DELEGATION.

The General Makes a Good Address and Refers to Indiana and the

Visitors' State as Geographical Neighbors—The Shelbyville Delegation Referred to by the Illinois Clubs

Calls at Eight O'clock—Politics, Crops and other News in the State of Kansas.

INDIANAPOLIS, July 19.—About 600 visitors from Illinois called on General Harrison today. In response to their congratulations, he thanked the delegation and spoke of the states of Indiana and Illinois as geographical neighbors. Continuing, he said:

But I rejoice to know that we are not only geographically neighbors, but that Indiana and Illinois have been neighbors in the high sentiments and purposes which have characterized their people. I rejoice to know that the same high spirit of loyalty and devotion to the country that characterized the state of Illinois in the time when the nation made its appeal to the brave men of all the states to rescue its flag and its constitution from the insurrection which had been raised against them, was equally characteristic of Indiana, that the same great impulse swept over your state that swept over ours, that Richard Yates, of Illinois, (cheers) and Oliver P. Morton, of Indiana, (prolonged cheers) stood together in the fullest sympathy and co-operation in the great plan they devised to augment and reinforce the union armed in the field and to suppress and put down treasonable conspiracy at home. As Americans, and as Republicans, we are glad that Illinois has contributed so many and such conspicuous names to that galaxy of great Americans and great Republicans whose deeds have been written on the scroll of eternal fame. I recall that it was on the soil of Illinois that Lovejoy died, a martyr to the sacred cause of "hear, hear!" He was the forerunner of Abraham Lincoln. He died, but his protest against human slavery lived. Another great epoch in the march of liberty was formed on the soil of Illinois, the theatre of its most influential event. I refer to that high debate in the presence of your people, but before the world, in which Douglas won the senatorship and Lincoln the presidency and immortal fame (loud cheers). But Lincoln's argument and Lincoln's proclamation must be made good upon the battlefield and again your state was conspicuous. You gave us Grant and Logan (prolonged cheers) and a multitude of less notable but not less faithful soldiers who underwrote the proclamation with their swords (cheers). I congratulate you today that there has come out of this early agitation, out of the work of Lovejoy, the disturber, out of the great debate of 1858, and out of the war for the union, a nation without a slave (cheers), not the shackles of slavery only, but the shackles of prejudice which bound every black man in the north have also been unbound. We are glad to know that the enlightened sentiment of the south today unites with us in the common bond of a free people. They have come to realize and many of their best and greatest men, to publicly express the thought that the abolition of slavery has been the gateway of progress and material development to the south that was forever closed against her people, while domestic slavery existed. We desire the streams of their prosperity shall flow bank full. We would lay upon their people no burden, but we do not willingly bear ourselves. They will not think it amiss if I say that the burden which rests willingly upon our shoulders is a faithful obedience to the constitution and the laws. A manly assertion by each of its individual rights to every other man is the boast and the law of good citizenship. Let me thank you again and ask you to excuse me from further public speech. I now ask an opportunity to meet my Illinois friends personally. (Loud and prolonged cheers.)

### KANSAS NEWS.

#### GRANT COUNTY.

SHOCKEY, July 19.—A heavy rain has been falling here most of the time for the last eight hours. It began at 4 p. m., and has continued with but little cessation up to this hour. If midnight it is believed to have been general over southwestern Kansas. The fears, which the drying winds and excessive heat of the previous week had caused, that the west would suffer a repetition of the drought of last summer, have entirely subsided—drowned out. In a few instances the corn was more or less injured by the extreme heat of a few days of last week, but most farmers believed that a good rain any time this week would insure a good crop of corn. The rain came in earnest and in a manner to do the most good, falling steadily, unaccompanied by wind for about eight hours.

Many of our farmers are still sowing millet and cane for fodder crops. The writer of this saw a few acres of millet in this county on August 10th, 1886, which, contrary to all expectation produced a very heavy crop, which was harvested out of the way of early frosts.

You may expect to hear encouraging crop reports from western Kansas this season, especially if we are favored with another rain at the proper time. The time when western Kansas farmers can be bought for a song and "sing it yourself" will soon be past.

### WICHITA COUNTY CROPS.

LEOTT, July 19.—During the past five days there has been a rainfall exceeding five inches. Corn will now make a big crop and as there is a large acreage growing, Wichita county will be able to supply outside counties with a large surplus. The wheat, oats and rye crop is all harvested and considerable of it threshed. Wheat averaged twenty bushels to the acre, rye upwards of forty bushels, oats not to exceed forty bushels. Flax is growing fine and will produce well. Farmers as a rule are jubilant. The soil is in better shape for fall plowing and sowing than ever before, and all will take advantage of it.

You may expect to hear encouraging crop reports from western Kansas this season, especially if we are favored with another rain at the proper time. The time when western Kansas farmers can be bought for a song and "sing it yourself" will soon be past.

### WICHITA COUNTY CROPS.

LEOTT, July 19.—During the past five days there has been a rainfall exceeding five inches. Corn will now make a big crop and as there is a large acreage growing, Wichita county will be able to supply outside counties with a large surplus. The wheat, oats and rye crop is all harvested and considerable of it threshed. Wheat averaged twenty bushels to the acre, rye upwards of forty bushels, oats not to exceed forty bushels. Flax is growing fine and will produce well. Farmers as a rule are jubilant. The soil is in better shape for fall plowing and sowing than ever before, and all will take advantage of it.

### SCOTT COUNTY.

SPECIAL DISPATCH TO THE DAILY EAGLE. SCOTT CITY, July 19.—Scott county is having a fine rain, doing much good to crops throughout the country. It has been raining now since 4 o'clock. Corn throughout the county looks fine. Wheat will harvest twenty bushels to the acre. Oats thirty and other crops in proportion. This county had two fine rains last week. Stock looks well throughout the county and the farmers are all pleased with the prospects they have before them.

### THE FIRST LOAD OF CATTLE.

SPECIAL DISPATCH TO THE DAILY EAGLE. CALDWELL, July 19.—The first train load of cattle, twenty-one cars, came through from Pond Creek, twenty-five miles from here in the territory, on the great Rock Island road and shipped by Stone & Wilson. We had two good rains this week and the corn crop will be the best known in these parts.

### LYON COUNTY REPUBLICANS.

EMPORIA, July 19.—The Republican county convention met in the Whitley opera house and elected a temporary organization, which, on motion, was made permanent by choosing Arthur Plumb as chairman and C. B. Riggs as secretary. After appointing the usual committees the convention adjourned until 1 o'clock, when the committee on order of business recommended the selection of delegates to the judicial and senatorial conventions and nominations of candidates for county offices be proceeded with. The report was adopted.

Judicial delegates and alternates were afterwards selected and instructed for Graves. The committee on resolutions then made the following report:

Resolved, By the Republicans of Lyon county, in convention assembled, that we heartily endorse the national Republican platform adopted at Chicago, and the candidates for president and vice-president nominated thereon.

Resolved, That we most heartily endorse the action of Senators Plumb and Ingalls in their able and patriotic defense of the principles of the Republican party and the rights of the Union soldiers.

Resolved, That this convention, assembled at the house of Senator Plumb, most earnestly indorses his course in the United States senate, and hereby instructs the delegates to the conventions to support only such candidates as pledge themselves to work earnestly for the Union.

The convention then proceeded to the selection of senatorial delegates with the following result: Delegate at large, William Martindale, from Lawrence; U. S. W. Decamp, A. G. Shipper, T. G. Sutton, J. A. Stratton, L. R. Sanders, T. F. Burns, T. L. Dean, J. G. Grier, W. H. Wyckoff, John Stinson, L. B. Mumford.

The nomination of probate judge was then proceeded with, resulting in the nomination of W. J. Combs. Colonel Flory was nominated for county attorney, and A. Taylor for clerk of district court, and A. A. Stevens, of Reading, for county superintendent of public instruction.

### DEATH IN THE FALLS.

Lumbermen Drowned while Attempting to Run the Bow River Rapids. WINNEPEG, Man., July 19.—Nine men left the camp of the Clear Lake Lumber Company Tuesday morning to begin the day's work. They took a boat forty-five miles west of Calgary, on the Bow river, and began descending the series of rapids. They came to a portage and carrying the boat half a mile attempted to cross the Kanabow rapids a short distance above a chute of five or six feet in height. When the boat got within three feet of the shore the men attempted to stop her by throwing a line around a stump on the bank.

They failed and the boat became unmanageable and swung around to the current acquiring such a momentum that before anything could be done she shot over the falls like an arrow. In the leap over the first chute she shipped only a little water and the second fall was passed without shipping any more. The men were absolutely helpless and unable to gain the shore for the boat fairly spun in the water as if it were a top. She kept in the center of the rapids till she reached the third fall, where she was again shot over the third fall and landed plumb upon a jagged rock. She struck the rock about above the water. Two of the men tried to grasp the shattered fragments of the boat, and the other six were swept away by the rushing water, and were never seen again. The wrecked boat with the two men clinging to it was picked up four miles further down the river. The man who jumped from the boat before she struck the rock, a terrible fall reached the shore in an exhausted condition.

### INJURED BY SULPHURIC ACID.

ST. LOUIS, July 19.—A peculiar accident occurred last night at the standard theater resulting in the probably fatal burning of Ed Hildard and Michael Dwyer, aged 19 and 21 respectively, and the severe injury of several others attached to the theater. The men were engaged in illuminating the theater with sulphuric acid, which Hildard and Dwyer were pouring from two stone jugs. Both jugs exploded at once, scattering the acid in every direction, saturating the clothing of the two young men who were pouring the acid and several of those who were near Hildard and Dwyer, crashed with pain, ran through the streets followed by a crowd, until caught by a policeman and taken to the city dispensary. In their fight they had torn nearly all their clothes off and reached the dispensary nearly nude. They were then taken home. The others wounded were able to go to the dispensary without assistance, but they are severely injured.

### IN A BAD SHAPE.

INDIANAPOLIS, July 19.—The officers
